

How to lock your lid

New!

Simply place your forefinger and thumb into the recessed grips and twist the grey disc so the locked padlock lines up with the circular marker. Then just twist back to unlock!

Important notes!

- Circular Cup is in its **open position** when the **grey push button is down** and is sealed shut when the disc is up.
- To avoid spillages, when you screw the lid on, **make sure that the drink is below the internal marked fill line.**
- **Ensure the grey push button is locked before putting it in your bag.** Force applied to the button when unlocked may cause accidental opening and spillages.
- Hot liquid over 65°C can cause steam pressure to build up inside a sealed cup. **If the push button becomes stiff to operate due to pressure build-up, loosen the lid first** to relieve the pressure.
- **Do not microwave!** Even if you've forgotten about your brew.

REUSABLE CUP

First things first...

Clean your cup with hot soapy water before you first use it....

How to clean your cup

Rinse your cup, or place it on the top shelf of the dishwasher, after each use with the lid in the open position. If you need a deeper clean, follow the steps below:

- Ensure your lid is in the closed and unlocked position. Insert the handle of a spoon under the grey push button disc.
- Pop it off! Don't be scared, it has been designed to be removed.
- Once you have cleaned your cup place the lid on a flat surface in its closed position and push until the grey disc snaps back on.

Done it? Okay, whilst it's drying we can get on with the important stuff.

Extend the life of your cup

We all want our products to last as long as possible. We will support you and your cup to make that happen by first providing a two-year guarantee and then replacement parts to further the life of your cup. For any problems with your Circular Cup always visit our website for links and videos on how to repair, replace or extend its use:

circularandco.com/faq

The Two Year Guarantee

We guarantee your Circular Cup for manufacturing defects for two years from the date of purchase. We will replace any product showing a manufacturing defect with the same or equivalent product if evidence of the defect and proof of purchase is supplied.

The Takeback Promise

In a Circular Economy, valuable materials are captured, recycled and reused, time and time again. To ensure this cycle takes place, we created our Takeback Promise, where you can return your old cup to us, we'll recycle it and turn it back into a brand new, high-value Circular product.

To say thank you, on receipt of your cup, we will send you a 40% discount code for a brand new circular product of your choice. Just head to the website, fill in your return form and post your cup to our collection centre:
